
**THROUGH THE APPLICATION OF INFORMATION TECHNOLOGIES
TO DENTAL INSTITUTIONS IN UZBEKISTAN " DENT CARD ”
SYSTEM IMPLEMENTATION**

Urakov Sh.U.

Samarkand, Uzbekistan

Cost: Modern society development conditions information technologies people to his life deep come in is going They are fast not only the world economy , but also people of activity another fields too development for important impulse b died . _ Currently information technologies q is immortal the field to find difficult _ Dental clinics and in the centers q is used information technologies the following has advantages : _ Medicine employees work more efficient economic efficiency is achieved due to organization and saving their time and reducing the actions related to calling narrow specialists . That's why for this the subject study _ is relevant .

Keywords: medicine employees, computer, clinic conducted.

Work purpose : Development of information technologies in the field of stomatology, as well as introduction of its software and information resources.

Material and research methods : Current at the time different smart cards in countries using patients about information t o ' cloak systems wide q is used . This card patient by whom , when and where level that it is insured fast blind spotting _ enable gives _ About him all information visual and number li in memory written will be

Dent _ card " computer from the system other people in the use of the patient coding system due to being data to the base r is unique to enter is not allowed . B emor to the ambulance appeal did in the case of medical to information access speed and accuracy provided that _ while medical help quality increases . Patient of this dental company desired to the clinic conducted _ treatment about the thief data with Dent _ card " with again appeal to do can , patients to live address when changing , different trips during little goose _ documentation volume increases . This is usually the case with most people containing data _ _ _ there may be no documents . As a result treatment expenses increases and his efficiency decreases . If in the clinic " Dent ard " system is available if b dies , then denta card if placed
